This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

I. THE ORIGIN AND FOUNDATION OF THE LIBRARY.

The present library is not the first institution of its kind that Osaka has ever had, for the history of the city reveals the fact that a public library on a small scale was instituted some sixteen years ago, but owing to the scarcity of funds and other difficulties, not to speak of the lack of interest on the part of the citizens, it gradually dwindled into insignificance and was finally discontinued without exciting much attention of the public.

After the lapse of some years, however, when the city could boast of a population of a million, a remarkable progress had been attained in all branches of education, but still the city had no library to which the public could have free access. This was, of course, a matter of regret, so when, in 1899, the prefectural government of Osaka planned an exhaustive system of education, it was decided that a public library should be established to fill the gap which had begun to be keenly felt. Thereupon, a bill for the establishment of a library was submitted by the Governor to the Osaka Prefectural Assembly. Just at this juncture Mr. Kichizaemon Sumitomo, a well-known millionaire resident of the city, volunteered to contribute to the Prefecture of Osaka the building for a library and also the handsome sum of 50,000 yen for the purchase of books. This liberal donation was accepted by the Prefectural authorities and it was decided to make certain additions to the proposed plans and erect a large public library in Nakanoshima Park.

The work on the new library building was begun in September, 1900, and completed in January, 1904. The purchase of books having

been made in the meantime and everything being in readiness for the opening of the library, the new building was dedicated February 25th, 1904, and opened to the public on the first day of March.

II. GENERAL DESCRIPTION OF THE BUILDING OF THE LIBRARY.

The Osaka Library is situated at Nakanoshima Park, and occupies a building site of about 3,950 square yards.

The building is in Renaissance style, built on concrete foundation with brick walls faced with finely dressed granite. Floors are all of fire-proof construction, and the dome-head frame is constructed with iron and steel.

The whole building covers an area of about 988 square yards and consists of three floors with an exception of stack room. The ground floor contains packing room, bindery, dining room, smoking room, lavatory, water closet etc. The first floor which can be approached directly from the ground level by grand stone steps on the front of the building, contains hall, periodicals' room 34 feet by 42 feet, drawing room and librarian's office. The second floor contains special reading room 18 feet by 37 feet capable of accommodating 40 readers, general reading room 34 feet by 42 feet capable of accommodating 72 readers, ladies' room 12 feet by 20 feet, boys' room of the same size as the former and memorial hall 20 feet by 32 feet.

The stack room consists of five floors and is entirely of fire-proof construction. It has direct communication with every floor of the main

building. Two book lifts are provided through floors for the easy transportation of books and from every floor speaking tubes are communicated to the general reading room and the periodicals' room in order to facilitate the prompt delivery of books. The shelving capacity is about 80,000 volumes.

At the rear of the building an engine and boiler room is built for the purpose of steam heating of the building.

III. STATISTICAL TABLES.

A. Books contained in the Library, up to March 1905:

Japanese and Chinese books.

Purchases	17,824	vols.
Gifts	15,882	„
Total	33,706	„

Books in foreign languages.

Purchases	3,105	„
Gifts	510	„
Total	3,615	„

B. Number of books contained in the Library, up to March, 1905, classified according to subjects.

RULES AND REGULATIONS.

(ABRIDGED)

1. The reading room is open daily from 8 or 9 A. M. till 9 or 10 P. M., according to the season of the year, excepting the last day of every month; the 11th of February; the 3rd of November; from the 28th of December to the 6th of January and about 10 days in Autumn.
2. Any person over 12 years of age, desiring to enjoy the benefit of the Library may obtain a ticket of the following description at the entrance, viz.

Ordinary ticket,	2	sen	for	single	admittance.
	12	,,	,,	10	admittances.
	30	,,	,,	30	,,
Special ticket,	5	,,	,,	single	admittance.
	30	,,	,,	10	admittances.
	75	,,	,,	30	,,

3. Holders of ordinary tickets are entitled to receive 4 volumes at once and those of the special tickets, 10 volumes.
4. Under all circumstances, readers must, before leaving the room, return to the attendant all the books borrowed.
5. Books lost or damaged must be replaced or paid for.
6. Smoking will not be allowed except in the room set apart for that purpose.
7. Silence must be strictly observed.
